HEAVY DUTY OPEN FRONT

72" CUTTING WIDTH

4" CUTTING DIAMETER

15-22 GPM FLOW

KEY FEATURES

- ◆ Available in 72" cutting width
- ◆ Cuts up to 4" material and handles thick brush and small trees
- ◆ 15-22 GPM recommended flow
- ◆ Recommended for host machines with up to 75 HP
- ◆ Three 1/2" double-sided, drop-down blades rotate on a 3/4" steel blade carrier
- ◆ 130 CC Eaton geroler hydraulic motor
- ◆ Oil-filled direct drive system engineered to prevent lower bearing seal failure.
- ◆ Heavy-duty push bar for operator safety
- ◆ 1/4" steel deck with structural cross-bracing provides strength and rigidity
- ◆ Bi-directional cutting control from the cab without hose swaps
- ◆ Fully enclosed motor compartment keeps out the debris and reduces overheating
- ◆ Maximum operating pressure of 4,000 PSI

Safety step allows for easier cab access

Heavy duty push bar for operator safety

Three drop-down blades for a closer cut

HEAVY DUTY OPEN FRONT BRUSH CUTTER

The game just changed. Our Blue Diamond Heavy Duty Open Front Brush Cutter delivers pro-level performance without the extreme-duty price. Built for contractors, landowners, and municipalities, it's the ideal blend of power, durability, and value.

Cut grass cleanly and tackle brush or trees up to 4" thick with a reinforced steel deck, oil-filled direct-drive, and swing-away blades for a closer cut. The open-front design with heavy push bar boosts productivity, while standard-flow hydraulics fit most skid steers up to 75 HP.

Heavy-duty where it matters. Affordability where it counts.
