

# POWER RAKE EXTREME DUTY

## FEATURES INCLUDE

- 6000 series motor weighs twice what competitive models do, and has around 40% more torque
- 4" x 4" square tube frame
- 18-26 GPM hydraulic flow, max 4000 PSI
- Optional replaceable teeth vs fixed teeth
- 1" front wheel axis vs competitive 3/4"
- 1.5" motor shaft and high pressure seals
- 5 position, 20 degree angle, manual or hydraulic
- 6 3/4" drum diameter, 10 3/4" including teeth
- Double struts on the castors

When productivity matters...look no further. Travel faster, cut deeper and get on to the next job! With skid steer machine sizes increasing in the industry, there is a need for more powerful and durable power rake/spoil conditioner attachment. The Blue Diamond® Power Rake - Extreme Duty is designed to power through jobs where other fail, and is set up for simple servicing. This massive 6000 series motor and optimal drum size product maximum torque, and the motor is kept out of the way, maximizing usable width in tighter areas. Aggressive 2" teeth are ideal for leaving a fresh seed bed with fewer passes.

Side Plate with Skid Shoe

Airless tires - NO flats
