

HYDRAULIC BREAKER

SKID STEER

The **Blue Diamond® Skid Steer Hydraulic Breakers** are designed to deliver maximum demolition performance with minimal maintenance. Available in six models for skid steers and compact track loaders, they feature a heavy-duty mono-block housing, energy recovery system, anti-blank firing protection, and only two internal moving parts to maximize reliability and reduce downtime.

Ideal for concrete demolition, rock breaking, road construction, utility work, and quarry applications, Blue Diamond Hydraulic Breakers provide powerful impact energy without the need for nitrogen re-gassing. Backed by a 3-year limited warranty, they're built to deliver dependable performance in the most demanding jobsite conditions.

KEY FEATURES

- ◆ ***3-year limited warranty**
- ◆ **Mono-block design / no tie rods**
- ◆ **Anti-blank firing system hydraulic brake**
- ◆ **No re-gassing needed**
- ◆ **Only 2 internal moving parts**
- ◆ **2 speed control / variable stroke**
- ◆ **Quiet self-regulating operation**
- ◆ **Interchangeable mounting brackets**
- ◆ **Body bushings around piston**
- ◆ **Polyurethane vibration/dampening shell**

*The first year of the warranty covers parts & labor in full and years two and three cover parts only. The monoblock 10-year warranty covers defects in materials and workmanship. Disassembly of the breaker in any way may void the warranty. Contact BDA for instructions and authorization before disassembly. Bent and broken tools are not covered by the warranty. A 108" hose comes standard, but longer extensions are available upon request. Customer is responsible for any hose modifications. One free tool included with breaker purchase. Operating weight does not include mount.
