

HYDRAULIC BREAKER

MINI SKID STEER

The **Blue Diamond® Mini Skid Steer Hydraulic Breaker** delivers powerful demolition performance with a rugged mono-block design that eliminates tie rods, requires no nitrogen re-gassing, and features only two internal moving parts for maximum reliability. A polyurethane vibration-dampening shell, energy recovery system, and anti-blank firing protection help maximize productivity while reducing wear on both the breaker and host machine.

Available in four models for carriers from 1,500 to 9,900 pounds, Blue Diamond Hydraulic Breakers are offered with Mini Universal, Bobcat MT, ASV, and Avant mounts to fit a wide range of compact equipment. Backed by a 3-year warranty, they're built for demolition, construction, utility, quarry, and landscaping applications where dependable performance matters.

KEY FEATURES

- ◆ ***3-year warranty**
- ◆ **Mono-block design / no tie rods**
- ◆ **Anti-blank firing system hydraulic brake**
- ◆ **No re-gassing needed**
- ◆ **Only 2 internal moving parts**
- ◆ **2 speed control / variable stroke**
- ◆ **Quiet operation**
- ◆ **Self-regulating**
- ◆ **Body bushings around piston**
- ◆ **Mounts available to fit most machines**

*The first year of the warranty covers parts & labor in full and years two and three cover parts only. The monoblock 10-year warranty covers defects in materials and workmanship. Disassembly of the breaker in any way may void the warranty. Contact BDA for instructions and authorization before disassembly. Bent and broken tools are not covered by the warranty. A 108" hose comes standard, but longer extensions are available upon request. Customer is responsible for any hose modifications. One free tool included with breaker purchase. Operating weight does not include mount.
