

MINI ANGLE BROOM

HEAVY DUTY SERIES 2

The **Blue Diamond® Mini Angle Broom** is a smaller version of our original angle broom. Designed for mini skid steers and smaller compact loaders, this broom makes quick work of dirt, snow, gravel, and debris on construction sites and parking lots.

Available with manual or hydraulic angle options, the broom's hydraulic version includes easy-to-use controls for smooth angle adjustments while operating. The bi-directional motor allows debris to be swept while moving forward or in reverse. Choose between 26" poly or poly-steel bristles for maximum durability and sweeping efficiency. When not in use, retractable support legs protect the broom and maintain bristle shape for longer life. Built for heavy-duty cleanup and year-round use, this broom delivers performance, reliability, and control you can count on.

Hose routing to protect hoses

Retractable stand protects bristles during storage

Steel, poly or poly-steel wafers available

PART NUMBER	116200	106205	106207
MODEL	48"	60"	60"
ANGLE KIT	HYDRAULIC	HYDRAULIC	MANUAL
WEIGHT	564 LBS	760 LBS	760 LBS
