

PICKUP BROOM

MINI

The **Blue Diamond® Mini Pickup Broom** delivers the same rugged performance as our full-size model, engineered specifically for mini skid steers and compact track loaders. Built for demanding cleanup jobs, this broom features durable 18" wafers that sweep material directly into the bucket—making it ideal for removing dirt, gravel, light snow, and jobsite debris with ease.

A reinforced hood and heavy-duty front bumper protect the bristles from impact, while greaseable bearings and pivot points extend the life of the attachment. Available in 42" and 54" widths, the Mini Pickup Broom is compatible with most mini skid steer mounts.

Grease Fittings on Pivot Points

Optional 16-Gallon Water Kit

18" Diameter Poly-Steel Bristles

Bolt-On Rubber Skirting

KEY FEATURES

- ◆ 18" poly/steel bristles for powerful, long-lasting sweeping performance
- ◆ Reinforced hood and front bumper protect bristles and broom housing
- ◆ Adjustable sweeping height for precise control and surface protection
- ◆ Optional 16-gallon dust suppression water kit for cleaner, low-dust operation
- ◆ Mounts available to fit most mini skid steers and mini track loaders

Protected bearings

Heavy duty rubber skirting to protect bristles

Poly/steel wafer - 42" requires 18 and the 54" requires 23
