

PUSH BROOM

HEAVY DUTY - COMPACT EXCAVATOR

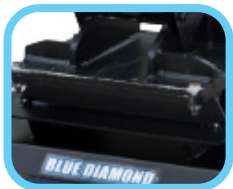

The **Blue Diamond® Compact Excavator Push Broom** is a heavy-duty sweeping attachment designed to clean roadsides, utility corridors, trails, sidewalks, parks, and construction sites that are difficult to access with traditional sweepers. Available in 60-inch, 72-inch, and 96" widths, it features 11 rows of replaceable polypropylene bristles that efficiently sweep dirt, gravel, leaves, standing water, and light snow while producing significantly less dust and flying debris than rotary brooms.

Built with an industrial-strength steel frame and requiring no auxiliary hydraulics, the Compact Excavator Push Broom delivers dependable, virtually maintenance-free performance for utility contractors, municipalities, landscape professionals, and public works departments. Its ability to reach confined areas with the excavator boom makes it an efficient cleanup solution where other equipment cannot operate.

KEY FEATURES

- ◆ Available in 60", 72", and 96" working widths
- ◆ 11 rows of replaceable polypropylene brush sections
- ◆ Individual 11" brush sections replace easily
- ◆ Reversible brush sections maximize service life
