

BRUSH CUTTER

HEAVY DUTY OPEN FRONT

The **Blue Diamond® Heavy Duty Open Front Brush Cutter** delivers powerful, reliable cutting performance at an exceptional value.

Built to cut grass, heavy brush, and trees up to 5 inches in diameter, it features a reinforced ¼" steel deck, oil-filled direct drive system, and three swing-away blades for a clean, efficient cut.

The open front design with heavy push bar increases productivity by feeding material directly into the blades, making it an ideal choice for skid steers up to 75 HP using standard-flow hydraulics.

KEY FEATURES

- ◆ 72" cutting width
- ◆ Cuts up to 5" material and handles thick brush and small trees with confidence
- ◆ 15-22 GPM recommended flow
- ◆ Recommended for host machines with up to 75 HP
- ◆ Three 1/2" double-sided, drop-down blades rotate on a 3/4" steel blade carrier
- ◆ 130 CC Eaton geroler hydraulic motor
- ◆ Oil-filled direct drive system engineered to prevent lower bearing seal failure.
- ◆ Heavy-duty push bar for operator safety
- ◆ Rear chain curtain minimizes discharge
- ◆ ¼" steel deck with structural cross-bracing provides strength and rigidity
- ◆ Bi-directional cutting control from the cab without hose swaps
- ◆ Fully enclosed motor compartment keeps out the debris and reduces overheating
- ◆ Maximum operating pressure of 4,000 PSI
- ◆ Safety windshield required for operator protection

Rear chain curtain minimizes discharge

PART NUMBER	103011	203027H-KIT
CUT WIDTH	72"	72" HD BLADE KIT (INCLUDES 3 BLADES W/HARDWARE)
FLOW RANGE	15-22 GPM	—
CUTTING CAPACITY	5"	—
HOST MACHINE	UP TO 75 HP	—
MAX PRESSURE	4,000 PSI	—
WEIGHT	1,370 LBS	38 LBS
