

BRUSH CUTTER

HEAVY DUTY OPEN FRONT

The **Blue Diamond® Heavy Duty Open Front Brush Cutter** delivers the perfect balance of power, durability, and value for customers who need serious cutting performance without stepping into extreme-duty pricing.

Designed to cut grass cleanly and handle brush and trees up to 4 inches in diameter, it features a reinforced steel deck, direct drive system, and drop-down swing-away blades for a closer, more efficient cut.

The open front design with a heavy push bar improves productivity, while standard-flow hydraulics ensure compatibility with while standard-flow hydraulics ensure compatibility with most skid steers up to 75 horsepower.

This is the ideal solution for contractors, landowners, and municipalities who want professional results, long service life, and dependable performance at a competitive price point.

Safety step allows for easier cab access

Heavy duty push bar for operator safety

Three drop-down blades for a closer cut

PART NUMBER	103011
CUT WIDTH	72"
FLOW RANGE	15-22 GPM
CUTTING CAPACITY	4"
HOST MACHINE	UP TO 75 HP
MAX PRESSURE	4,000 PSI
WEIGHT	1,370 LBS

Optional: 72" Rear Chain Curtain Kit - 203055-KIT
Replacement Blade Kit (3 Blades and Hardware) - 203027H-KIT

KEY FEATURES

- ◆ Available in 72" cutting width
- ◆ Cuts up to 4" material and handles thick brush and small trees
- ◆ 15-22 GPM recommended flow
- ◆ Recommended for host machines with up to 75 HP
- ◆ Three 1/2" double-sided, drop-down blades rotate on a 3/4" steel blade carrier
- ◆ 130 CC Eaton geroler hydraulic motor
- ◆ Oil-filled direct drive system engineered to prevent lower bearing seal failure.
- ◆ Heavy-duty push bar for operator safety
- ◆ 1/4" steel deck with structural cross-bracing provides strength and rigidity
- ◆ Bi-directional cutting control from the cab without hose swaps
- ◆ Fully enclosed motor compartment keeps out the debris and reduces overheating
- ◆ Maximum operating pressure of 4,000 PSI
