

Blue Diamond® Mini Skid Steer Open Front Brush Cutters

delivers powerful brush-clearing performance in a compact package. Designed for mini skid steers and compact tool carriers, it easily cuts heavy grass, dense vegetation, and brush up to 4 inches in diameter. The aggressive open-front design exposes over 2¼ inches of blade, allowing operators to cut closer to the base of trees, saplings, and thick brush for faster, more efficient clearing.

Powered by a high-torque 80cc geroler motor and a heavy-duty greaseable direct-drive system, this cutter is built for long-lasting reliability in demanding conditions. Three double-sided blades mounted on a ¾-inch thick steel blade carrier provide exceptional cutting performance, while the reinforced ¼-inch steel deck, fully enclosed motor cover, and heavy-duty push bar ensure years of dependable service.

KEY FEATURES

- ◆ 42" cutting width
- ◆ 4" maximum cutting capacity
- ◆ Open front deck design
- ◆ 2¼" blade exposure for aggressive cutting
- ◆ High-torque 80cc geroler motor
- ◆ Three double-sided cutting blades
- ◆ ¾" thick steel blade carrier
- ◆ Bi-directional cutting capability
- ◆ Greaseable direct-drive system
- ◆ Lifetime warranty on spindle
- ◆ Fully enclosed motor cover
- ◆ Reinforced steel push bar
- ◆ ¼" reinforced steel deck
- ◆ Mini universal or Bobcat MT mount options

Reinforced push bar
