

MINI DISPENSING BUCKET

1/2 YARD CAPACITY

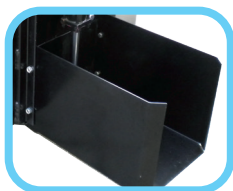

The **Blue Diamond® Mini Dispensing Bucket** is built for mini loaders that need efficient material handling in tight spaces. It features a 1/2-yard hopper with splash guards around the top lip of the bucket and is ideal for moving and dispensing mulch, gravel, soil, sand, seed, and other materials with controlled placement.

Designed for landscaping, construction, nurseries, and property maintenance, this compact dispensing bucket helps operators move more material while reducing manual labor. Its maneuverable size makes it especially useful where larger equipment can't easily reach, delivering productivity without sacrificing precision. The tapered front helps material flow freely and the removable chute makes cleaning and storage easy!

KEY FEATURES

- ◆ 1/2 cubic yard hopper with tapered front for compact material handling
- ◆ Hydraulic dispensing gate with 18" bolt-on chute for controlled material flow
- ◆ Splash guard around top lip to keep materials from spilling out
- ◆ Hoses and couplers included
- ◆ Mini Universal Mount
- ◆ Compact footprint for maneuverability in tight areas
- ◆ Heavy-duty steel construction
- ◆ Wide bucket opening for quick and efficient loading
- ◆ Provides precise material placement around landscaping and construction sites
