

# BUCKET DUMPSTER

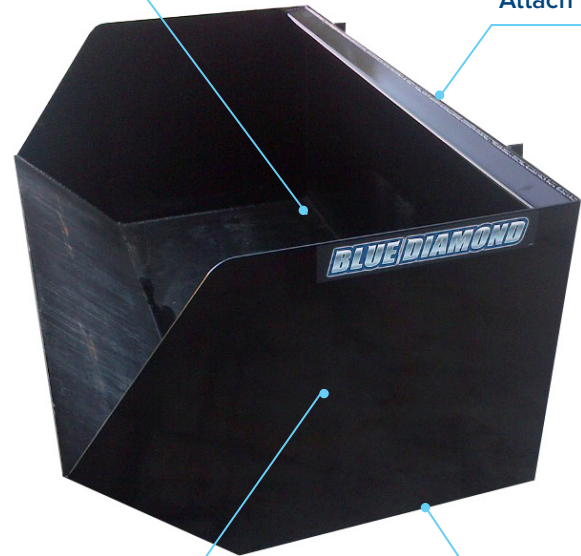

The **Blue Diamond® Dumpster Bucket** is a versatile skid steer attachment designed to improve job site cleanup and material handling. Acting as a large, mobile trash bucket, it allows operators to collect debris directly at the work area and quickly dump it into a truck or full-size dumpster. This attachment helps reduce downtime and keeps job sites cleaner and more organized.

In addition to debris removal, the Dumpster Bucket is ideal for carrying lightweight materials such as tools, mulch, gravel, sand, shrubs, and potted trees. Whether used on construction or landscaping projects, the Blue Diamond Dumpster Bucket offers a practical, time-saving solution for transporting materials and maintaining a clean, efficient job site.

Up to 1.5 Cubic Yard Capacity

Universal Quick Attach Mount

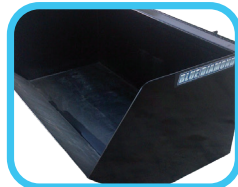

Heavy Shell and Reinforced Sides

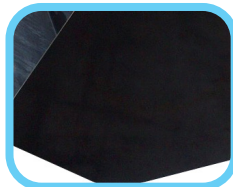

Drain Holes at Bottom

Heavy shell and reinforced sides

Up to 1.5 Cubic Yard Capacity
