

GENERAL PURPOSE BUCKET

LOW PROFILE

Blue Diamond® Low Profile General Purpose Buckets is designed for everyday skid steer loading, grading, digging, backdragging, and material handling. Available in 60" through 84" widths, these buckets feature a low-profile design for excellent visibility, reinforced bottom wear plates, a 70° back angle, and smooth or tooth cutting-edge configurations.

Choose a 20" high × 29" deep standard bucket for versatile everyday work or select a 20" high × 39" deep long-bottom model for increased material capacity up to 22 cu. ft. Smooth buckets feature a 3/4" × 6" cutting edge with optional bolt-on edges, while tooth models use a heavy-duty 1" × 8" cutting edge with replaceable cast teeth. Designed as an economical general-purpose solution for appropriately matched skid steers under 65 HP, these buckets are not recommended for tracked machines.

KEY FEATURES

- ◆ Available in 60", 66", 72", 78", and 84" widths
- ◆ Low-profile 20" bucket height provides excellent cutting-edge visibility
- ◆ Standard and long-bottom configurations available
- ◆ Smooth buckets feature a 3/4" × 6" cutting edge punched to accept an optional bolt-on edge, with steel, poly, and serrated options
- ◆ Tooth models feature a heavy 1" × 8" cutting edge with replaceable 230-series side-pin cast teeth
- ◆ 60"-72" buckets: 3/16" steel wrap
- ◆ 78"-84" buckets: 1/4" steel wrap
- ◆ Designed for effective back dragging with the bucket heel
- ◆ Treaded safety step improves operator access
- ◆ Durable powder-coated finish
- ◆ Universal skid steer mount
- ◆ Not recommended for tracked machines
