

# QUARRY BUCKET SKID STEER

The **Blue Diamond® Skid Steer Quarry Bucket** is built to perform in the toughest conditions, this heavy-duty bucket is engineered for reliability, strength, and long-term performance. Featuring reinforced steel construction, a rugged quick-attach system, and durable wear components, it's designed to handle demanding jobs day in and day out. From quarry operations to material handling around conveyor systems, this bucket delivers the strength and durability needed to keep production moving. Bolt-on edges provide added versatility, making it a dependable solution for a wide range of applications.

Quick-Attach Skid Steer Mount

Safety Steps for Easy Cab Access

1/2" Steel Gusset for Added Strength

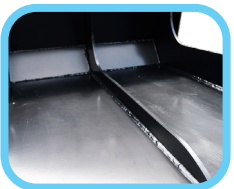

1/2" Steel Side Plates
