

SNOW & MULCH BUCKET

STANDARD AND HEAVY DUTY

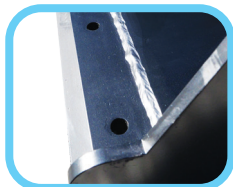

Blue Diamond® Skid Steer Snow and Mulch Buckets are very popular for a wide range of uses. This high volume bucket, also known as a chicken litter bucket, is used for snow removal, mulch, wood shavings, gravel, and a host of other applications where lightweight material needs to be moved in bulk. Not all snow and mulch buckets are equal.

These Blue Diamond® buckets use vertical gussets that tie the floor to the reinforced frame. Built from heavy-duty 3/16-inch or 1/4-inch steel, these buckets feature a 1/2-inch thick cutting edge that is pre-drilled for optional bolt-on cutting edges and 1/2-inch wear bars for added durability.

KEY FEATURES
