

DISC HARROW HEAVY DUTY

The Blue Diamond Heavy Duty Disc Harrow is perfect for creating a food plot or planting a garden. This 6-foot attachment has twenty 18" heavy duty notched steel blades to perfectly prep and till the land. Gang angles are adjustable from 2.5-15 degrees to aggressively dig up the dirt. Each gang also has replaceable sealed bearings. The 6 ft. Disc Harrow is compatible with Cat 0 3-point spacing with Cat 1 pins installed and ideally suited to tractors 35-45 HP.

APPLICATIONS INCLUDE:

- Soil preparation and management
- Weed control
- Residue management
- Land clearing
- Forestry applications

Category 0 hitch (Cat 1 pins installed)

Blades spaced 7 1/2" apart for finer soil finishing

20 notched disc blades to prep and till land

Gang angles can be adjusted from 2.5-15 to aggressively dig up dirt
