

The Blue Diamond® HDX Grapple Bucket is engineered for skid steers and compact loaders up to 75 horsepower. The HDX Grapple Bucket offers a 72-inch width and a maximum opening of 32 inches. Positioned between our Heavy Duty and Severe Duty models, the HDX series bridges the gap with enhanced performance and durability. Constructed from 1/2-inch steel, these grapples feature fully welded cylinders and upgraded cylinder protection for increased reliability.

APPLICATIONS INCLUDE:

- Land clearing
- Storm damage cleanup
- · Log and brush removal
- · Rock and debris handling
- · Landscaping and agriculture

Reinforced cylinder covers

1/4" thick wall tube
