

The **Blue Diamond® Mini Grapple Rake** is a compact, yet powerful attachment engineered for exceptional root removal, debris cleanup, and material handling with mini skid steers and mini track loaders. Despite its small footprint, this grapple rake delivers serious performance—ripping out roots, piling debris, and securely clamping irregular loads with ease.

The rake features independently operating dual top clamps, enabling precise gripping even when the load is uneven. The serrated 3/4" bottom tines tear through soil to uproot roots and loosen debris while minimizing ground disturbance. Its solid-back frame and heavy-duty hydraulic cylinders ensure strength and reliability in demanding applications.

KEY FEATURES

- ◆ Available in 42" and 48" widths
- ◆ Dual 3/8" steel top clamps operate independently
- ◆ Large 32.5" grapple opening for oversized materials
- ◆ Heavy-duty hydraulic cylinders with enclosed covers
- ◆ Solid-back frame design for strength
- ◆ Six (6) 3/4" serrated bottom tines spaced 9" apart
- ◆ Greaseable pivot pins for long-term reliability
- ◆ Universal mini and Bobcat MT mounts available
- ◆ Hoses and couplers included
- ◆ Built in the U.S.A.

Heavy duty hydraulic cylinders with enclosed covers
