

# GRAPPLE RAKE

## SEVERE DUTY

The Blue Diamond® Severe Duty Grapple Rake is built to tackle the most demanding projects. This grapple rake will clear, grip, and move tough debris with control. Its curved tine design makes it easier to roll material into piles and tight spots, while dual heavy-duty grapples secure uneven loads. The attachment comes with 3/4" thick tines, replaceable teeth, and all pivot points have grease fittings. This grapple rake is a great alternative to a root grapple where visibility is critical.

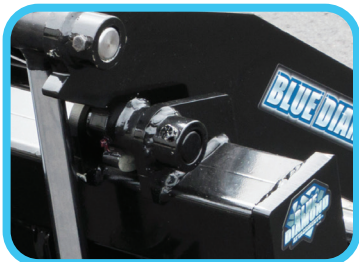

### APPLICATIONS INCLUDE:

- Debris removal
- Land clearing
- Material handling
- Landscape project
- Demolition work
- Fire prevention and management
- Agricultural operations
- Waste management

Eight replaceable teeth

Pivot points have grease ports

### KEY FEATURES

- ◆ Dual top clamps
- ◆ 3/4" thick tines
- ◆ Replaceable teeth
- ◆ 3,600 is the max PSI
- ◆ Opens up to 58"
- ◆ Not rated for machines over 120 HP

PART NUMBER	MODEL	TINE WIDTH	MAX PRESSURE	WEIGHT
106515	72" Severe Duty Grapple Rake, Dual Clamp	3/4"	3,600 PSI	1,247 lbs
