

# LAND PLANE STANDARD DUTY & MINI

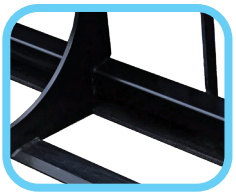

Achieve a smooth, professional finish on dirt and gravel surfaces with the **Blue Diamond® Land Plane**. Engineered with four heavy-duty cutting edges, this attachment efficiently shaves high spots and fills low areas in fewer passes. Ideal for driveway maintenance, site preparation, sod removal, and trail leveling, it's a true multipurpose tool for demanding jobs.

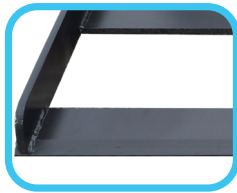

Designed to operate in both forward and reverse, the Land Plane increases productivity while reducing operator fatigue. Built in the USA from thick steel and protected with a durable finish, it delivers long service life at a cost-effective price point—making it a smart investment for contractors and property maintenance professionals.
