

PALLET FORKS

CLASS 3 - 10,000 LB CAPACITY

The **Blue Diamond® Class 3 Walk-through Pallet Forks** are designed for large-frame skid steers, compact track loaders, and compatible wheel loaders requiring serious lifting capacity. Featuring a 10,000 lb. rating, 50-inch-wide frame, and Class 3 tine lengths from 48" to 96", these forks are built for heavy and oversized material handling.

A 17-inch walk-through backrest opening with integrated safety step improves cab access and provides clearance for wheel-loader center linkage. Four adjustable tine positions allow spacing from approximately 13-1/4" to 49-1/4", while the universal skid steer mount provides versatility across compatible host machines.

KEY FEATURES

- ◆ 10,000 lb. lift capacity
- ◆ Heavy-duty 50" wide walk-through fork frame
- ◆ Available with 48", 60", 72", 84", and 96" Class 3 tines
- ◆ Four tine-position settings
- ◆ Tine spacing adjusts from approximately 13-1/4" to 49-1/4"
