

HYDRAULIC PALLET FORKS

4,000 LB CAPACITY - HEAVY DUTY

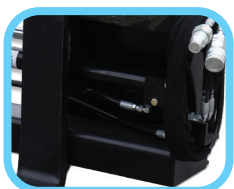

The **Blue Diamond® 4,000 lb Capacity Hydraulic Pallet Forks** are a must-have attachment for skid steer owners who regularly move pallets, lumber, building materials, and other heavy loads. Operators can adjust tine spacing from 8 inches to 40 inches on center to accommodate a wide range of pallet sizes and material handling tasks. Whether you're loading trucks, unloading deliveries, handling lumber, or moving palletized materials around a jobsite, the hydraulic adjustment feature keeps you working instead of manually repositioning forks.

Built for strength and durability, the Hydraulic Pallet Forks feature a robust 4,000-pound lifting capacity, Class 2 fork tines, and a rugged frame designed for demanding commercial applications. Available with either 48-inch or 60-inch tines, this attachment offers the flexibility needed for a variety of industries, including construction, agriculture, landscaping, and material handling.

KEY FEATURES

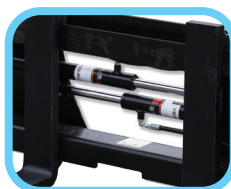

- ◆ 4,000 lb lifting capacity
- ◆ Hydraulic fork positioning adjusts 8"- 40" from the cab
- ◆ Dual 16" stroke American-made cylinders for smooth adjustment
- ◆ Heat-treated Class II tines in 48" or 60" lengths
- ◆ High-visibility frame steel frame and integrated safety steps
