

PALLET FORKS

6,000 LB CAPACITY - WIDE HEAVY DUTY

The **Blue Diamond® Wide Frame Heavy Duty Pallet Forks** are designed for handling wide, bulky, and heavy loads with skid steers. Featuring a 72-inch-wide frame, 6,000 lb. lift capacity, and Class 2 tines available in 60-inch or 72-inch lengths, these forks provide the strength and flexibility needed for demanding material handling applications.

A 22-inch low-profile frame improves operator visibility and helps when working in tight or low-clearance areas. A 33-inch backrest model is also available for added load support and operator protection. Integrated safety steps, rugged frame construction, and a universal skid steer mount complete this heavy-duty fork attachment.

33" Tall Backrest Model Available

22" low-profile frame

Heavy-duty frame

Adjustable tines
