

VIBRATING POST DRIVER

Don't let the size of the Blue Diamond® Vibratory Post Driver fool you! This unit packs more of a punch than most hammer-style drivers on the market. By using hydraulic orbital technology, this vibratory post driver uses your machine's auxiliary flow in the most efficient way.

FEATURES INCLUDE

- Available with 4", 6", 9" or 12" adapter
- Requires 7-26 GPM auxiliary flow
- Optional tilt function
- Easy to transport and store
- Lightweight
- Interchangeable mount
