

ROOT GRAPPLE

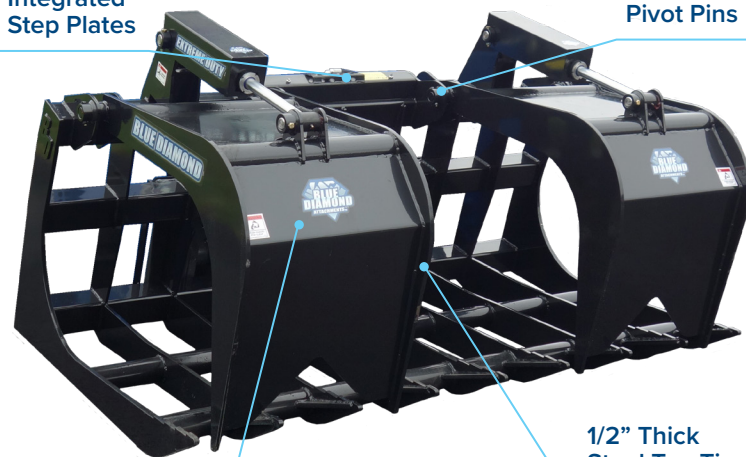

EXTREME DUTY - HIGH CAPACITY

The **Blue Diamond® Extreme Duty High-Capacity Root Grapple** is engineered to dominate the toughest land-clearing, demolition, and material-handling tasks. Available in 72", 78", and 84" widths, this grapple combines 1/2" thick, one-piece steel tines with a reinforced 3" x 3" structural tube frame, ensuring unmatched strength, rigidity, and resistance to twisting under the heaviest loads. Its massive dual independent top clamps allow operators to grab and hold up to 25" high x 35" deep of material in each load — making it one of the most capable grapples in its class.

From its heavily reinforced universal mount to its protected hydraulic system and "no-pinch" hose routing, every component of this grapple is purpose-built for long-term performance in extreme working conditions.

Integrated Step Plates

Greaseable Pivot Pins

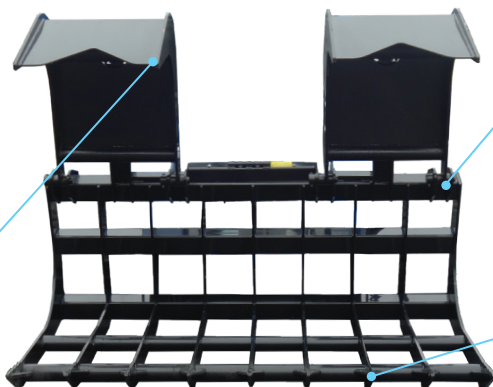

1/2" Thick Steel Top Tines

Dual Independent Top Clamps

KEY FEATURES

- ◆ Available Widths: 72", 78", and 84"
- ◆ Opens to 50" at tip of tines/clamps
- ◆ 25"H x 35"D opening inside of clamps
- ◆ Designed for skid steers up to 100 HP
- ◆ 1/2" steel dual independent top clamps for secure, even grip
- ◆ 1/2" solid one-piece steel tines with serrated tips
- ◆ 8" tine spacing with reinforced cross tube design
- ◆ 1 1/4" greaseable pivot pins
- ◆ Integrated step plates on heavily reinforced mount
- ◆ Fully protected cylinders and "no pinch" hose routing
- ◆ Hoses and flat face couplers included
- ◆ Universal Skid Steer mount

3" x 3" Structural Tube Frame

Opens to 50"

8" Tine Spacing

Protected cylinders

8" tine spacing with reinforced cross tube design

"No-pinch" hose routing
