

ROOT GRAPPLE

MINI

The **Blue Diamond® Mini Root Grapple** is built to tackle the toughest jobs in confined spaces. Designed for mini skid steers up to 50 HP, it combines lightweight efficiency with industrial-grade strength for demolition, landscaping, and cleanup work.

Built with 5/16" thick steel tines, heavy-duty 1" pivot pins, and protected hydraulic components, this grapple delivers long-term reliability and minimal maintenance in demanding environments.

Greaseable
Pivot Pins

36" to 50"

KEY FEATURES

- ◆ Single or Double Clamp Models – Choose the configuration that fits your workload
- ◆ Available Widths: 36" – 50" – Sized for any mini skid steer application
- ◆ 2" Bore x 4-1/2" Stroke Cylinders with 1" OD Pins – High clamping force and long service life
- ◆ 1" Pivot Pins in Bushings – Built for strength and durability under load
- ◆ 5/16" Steel Tine Thickness – Heavy-duty design resists flexing and wear
- ◆ 36" Opening Height – Wide jaw capacity for large debris and root removal
- ◆ Protected Cylinders and Hoses – Prevents damage and extends component life
- ◆ Greasable Pivot Points – Easy maintenance for smooth operation
- ◆ Mini-Universal and Bobcat MT mounts available
