

MINI ROTOTILLER

MINI

The **Blue Diamond® Mini Rototiller** is built to deliver professional-grade soil preparation for mini skid steers. Designed with the same heavy-duty components as our full-size tillers, this attachment features a protected direct-drive motor with oversized nose cone bearings for long-lasting durability and reduced maintenance. With bi-directional rotation and the ability to till up to 6" deep, it efficiently prepares gardens, food plots, and seedbeds while allowing operators to cover tracks in a single pass. Available in 48" and 56" widths with Mini Universal or Bobcat MT mounts.

Double edge replaceable tines

Protected direct drive motor

Solid round tube for strength

KEY FEATURES
