

# SNOW PUSHER MINI

The **Blue Diamond® Mini Skid Steer Snow Pusher** is the perfect attachment for efficiently removing snow from sidewalks, driveways, and smaller parking areas. Designed specifically for mini skid steers, this pusher attachment allows operators to move and stack snow straight ahead—faster and more effectively than traditional angled snow blades.

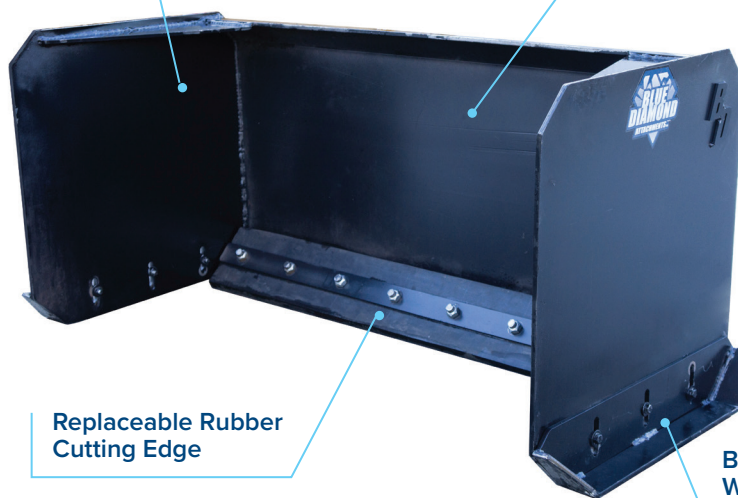

Built with durability and versatility in mind, the Mini Snow Pusher combines a rugged steel frame, replaceable rubber edge, and optional pull-back feature for superior control in tight spaces. Whether clearing around garages, curbs, or narrow paths, this attachment makes winter maintenance easy, fast, and efficient.
