

TREE SHEAR
SKID STEER

The **Blue Diamond® Skid Steer Tree Shear** delivers powerful, controlled cutting performance for demanding land clearing and vegetation management applications. Engineered to cut trees and heavy brush up to 12 inches in diameter, this hydraulic tree shear features a massive 5” × 12” cylinder that produces 29 tons of cutting force at 2,500 PSI. A heavy-duty 1” thick T1 steel cutting edge provides exceptional strength and durability, while the manually adjustable cutting head rotates 90 degrees for cutting limbs and downed trees. Built for contractors, landowners, and property maintenance professionals, the Blue Diamond Tree Shear combines serious cutting power with versatile, serviceable construction.
