

WORK PLATFORM FORKLIFT

Blue Diamond® Work Platforms are built for safety and strength. Designed for forklifts and telehandlers, each platform features a 2,000 lb. load capacity, expanded steel deck, and full-perimeter guardrails.

Designed to safely lift personnel, tools, and materials, this platform meets or exceeds OSHA standards, making it a practical choice for contractors, maintenance crews, and warehouse operators. Available in multiple lengths and fork pocket sizes, Blue Diamond® Work Platforms provide a cost-effective and more versatile substitute for boom lifts and scissor lifts.
