

STUMP BUCKET

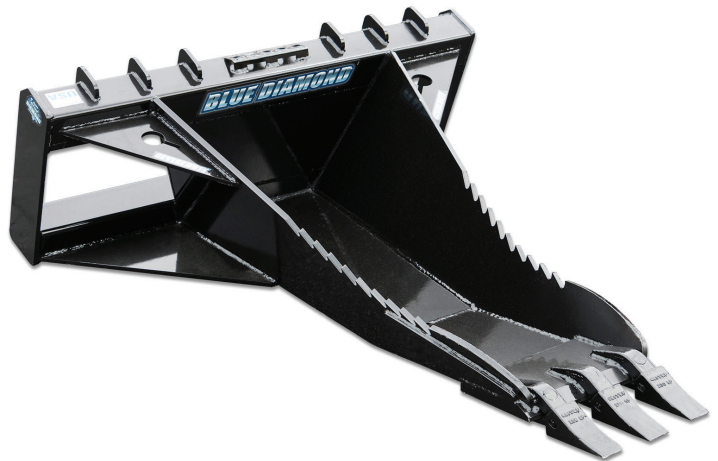

Our extreme duty stump bucket is the original, most effective and versatile stump bucket on the market. Now the new Severe Duty gives Blue Diamond® the absolute heaviest duty stump bucket in the industry!! The long profile and curved bottom make quick work of large stumps and can pry up rocks with ease. It reaches far under the stump and tears the roots with the teeth located on the side of the bucket. Other uses for this stump bucket include: prying up old fence posts, removing sidewalks and asphalt, and digging ditches and swales. This Brutal bucket is like having a crowbar on the front of your machine!

FEATURES INCLUDE

- 443 lbs.
- Pin on cast teeth
- 4" square tubing
- Formed bottom with
- 1" x 8" cutting edge
- Chain tie downs for moving stumps
